

Storebro

Storebro Bruks AB was originally founded in year 1728, when a hammer forge was erected for the processing of iron ore fished out of the nearby lakes. Also a blast furnace, a flour- and saw mill was built and last but not least a small foundry. This gradually developed into a modern industry which today employs around 500 people, divided in two separate divisions - machine tools and boats.

Machine tool production has been a main activity since the beginning of this century. The boat production was started in 1945 with small rowing and fishing boats.

Skilful workers in Storebro and Västervik see to that machine- and boat building traditions lives and make it possible for the products to correspond to the high demands of the Storebro customers.

STOREBRO

Storebro Bruks AB
S-590 83 STOREBRO, SWEDEN
Telefon 0492-301 60 (nat.)

Telex 3943 STB S

STOREBRO GK 195
centre height/distance 195/1000-2000 mm

STOREBRO GS 210/260
centre height/distance 210, 260/1000-2000 mm

STOREBRO Combi Mill
horizontal and vertical
milling machine
working area, length/cross/vertical 460/150/775 mm

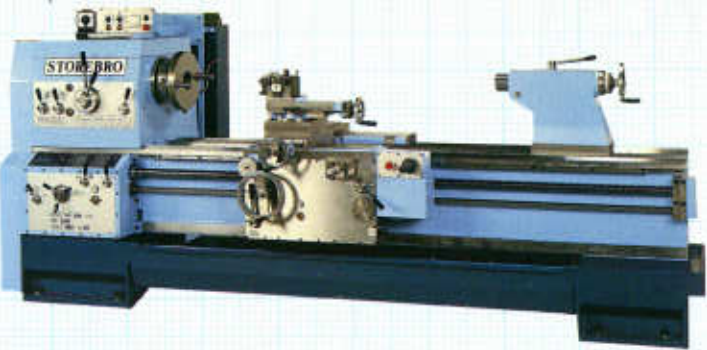

STOREBRO Combi Mill CNC
numerically controlled milling machine
working area, length/cross/vertical 450/360/700 mm

STOREBRO STB 2000
working area between centres \varnothing 240x675 mm
DC-drive 11 or 22 kW, spindle speeds up to 6000 r/min

STOREBRO STB 4000
working area between centres \varnothing 325x950
DC-drive 44 kW, spindle speeds up to 4000 r/min

STOREBRO SB 255/305/355 -N
centre height/distance 255, 305, 355/1500-6000 mm
spindle bore up to 310 mm

STOREBRO MPS 450
surface grinder
working area, length/cross/
vertical 450/190/220 mm

STOREBRO DHB 180/230
deep hole boring machine,
boring depth/dia. up to 3600/280 mm, spindle power 90 kW

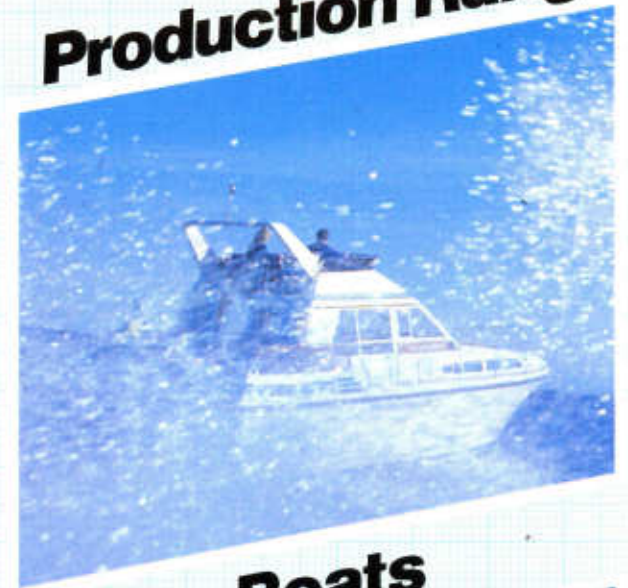

STOREBRO STB 6000/PLL 40
working area
between centres \varnothing 470x900
DC-drive 44 kW, spindle speeds up to 3000 r/min

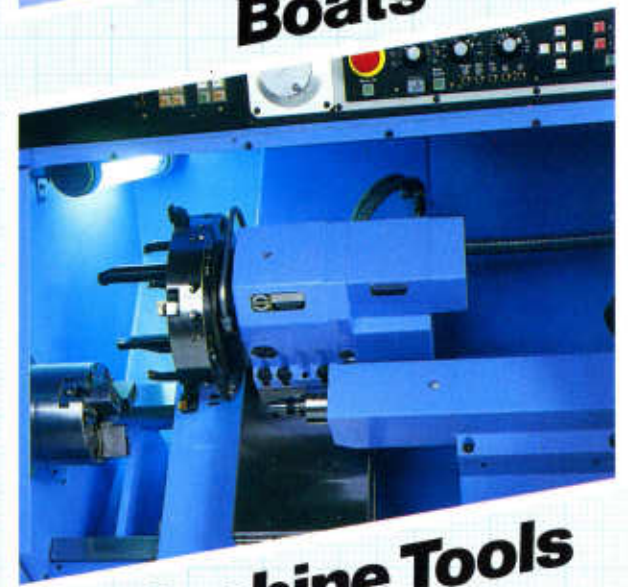

STOREBRO DHB 355 NC
deep hole boring machine
boring depth/dia. up to 3000/150 mm,
spindle power 47 kW

STOREBRO

Highest quality and advanced technology are the hallmarks of all Storebro products.

To obtain this you need complete manufacturing facilities, absolute control in all steps, use the best of materials and well trained craftsmen.

Storebro is the biggest producer of lathes in Scandinavia. You will find a wide range - from smaller manual centre lathes up to heavy CNC production machines. The program also includes horizontal drilling machines for BTA, Ejector and Gun-Drill systems, as well as smaller milling machines and surface grinders.

Customers are to be found near to all over the world, and in all kinds of mechanical work shops and training schools.

Boat production started in a very modest scale, but from the beginning the emphasis was on quality. Today Storebro boats are well known all over the world for their superb finish, design, comfort and seaworthiness.

The program includes boats of between 31 Ft and 40 Ft in length with both power and sail. A range of commercial crafts includes work boats, patrol boats and personel carriers.

We would very much like to show you our work shops and yards, our production and last but not least our products. So why not come and see us?

STOREBRO ROYAL CRUISER 31 ADRIATIC
L.o.a 9.30 m, beam 3.20 m, displ. 4.5-5.5 tons

STOREBRO ROYAL CRUISER 34 BALTIC
L.o.a. 10.35, beam 3.20 m, displ. 5-6 tons

STOREBRO ROYAL CRUISER 31 BALTIC
L.o.a 9.30 m, beam 3.20 m, displ. 4.5-5.5 tons

STOREBRO ROYAL CRUISER 34 BALTIC DS
L.o.a. 10.35, beam 3.20 m, displ. 5-6 tons

STOREBRO ROYAL CRUISER 31 BISCAY
L.o.a 9.30 m, beam 3.20 m, displ. 4.5-5.5 tons

STOREBRO ROYAL CRUISER 34 BISCAY
L.o.a. 10.35, beam 3.20 m, displ. 5-6 tons

STOREBRO ROYAL CRUISER 340 ADRIATIC

L.o.a. 10.23 m, beam 3.77 m, displ. 7-8 tons

STOREBRO ROYAL CRUISER 36 BALTIC

L.o.a. 11.00 m, beam 3.83 m, displ. approx 9 tons

STOREBRO 31 PC

L.o.a. 9.30, beam 3.30, displ. approx 5.5 tons

Storebro have been building boats for over 40 years now and have gained an enviable reputation worldwide for quality of finish and seaworthiness second to none.

The certificate from Det Norske Veritas issued for each individual boat ensures not only a strong hull but also a totally approved construction. It includes a meticulous inspection of materials used, installations, workmanship and not to forget, temperature and humidity controlled halls for boat and fibreglass production.

STOREBRO ROYAL CRUISER 40 BALTIC

L.o.a. 12.09 m, beam 3.91 m, displ. approx 11 tons

STOREBRO 34 WORKBOAT

L.o.a. 10.35 m, beam 3.30 m, displ. approx 6 tons

STOREBRO ROYAL CRUISER 340 BISCAY

L.o.a. 10.23 m, beam 3.77 m, displ. 7-8 tons

STOREBRO ROYAL CRUISER 40 BISCAY

L.o.a. 12.09 m, beam 3.91 m, displ. approx 11 tons

STOREBRO 40 OFFSHORE

L.o.a. 12.09 m, beam 3.91 m, displ. approx 11 tons
