

# STOREBRO ROYAL CRUISER 34 FLYING BRIDGE

## LIFE AT THE TOP CAN BE YOURS!

The luxury of the flying bridge on the ROYAL STOREBRO CRUISER 34 adds a new dimension to your boating. Climb the ladder and take the helm. The wide, comfortable seats are raised to ensure a perfect all round view. You don't have to stand up, not even in crowded harbours. If the weather gets worse, remember that the lower helm is just a few steps below. If your STOREBRO ROYAL CRUISER 34 doesn't have a flying bridge, ask your Storebro representative for a quotation to have one installed.

### SPECIFICATION:

#### Capacity:

The flying bridge is designed to take the load of 3 adults.

#### Material:

Screen in glassfibre – handrails and ladder in stainless steel.

#### Equipment:

Twin wide seats – windscreen – steering control – throttle and gear controls – twin revcounters – twin temperature gauges – twin oil pressure warning lamps – twin charging control lamps – handrails – ladder.
